

Welsh Small-bore Rifle Association

Short range bench rest competition summer 2017

This is a short-range bench rest competition which is being run by the WSRA shooting 10 rounds at 25yards using the new NSRA bench rest cards

Each round will consist of shooting 2x 10 spot bench rest cards using a “ Front Support only “ The competition will be split into divisions by average and can be shot using 177 or 22 calibre rifles. Each target must have only one shot per diagram and will be scored using the New NSRA bench rest rules which includes an extra point for not breaking the Ex Ring.

Shot cards must be received by the scorer 7 days after the last date for shooting that round.

This is a new discipline from the W.S.R.A to encourage the continued participation of target shooting from shooters who would normally leave the sport through age or disability.
